

When Henri Lefebvre published *The Urban Revolution* in 1970, he sketched a research itinerary on the emerging tendency towards planetary urbanization. Today, when this tendency has become reality, Lefebvre's ideas on everyday life, production of space, rhythm analysis and the right to the city are indispensable for the understanding of urbanization processes at every scale of social practice. This volume is the first to develop Lefebvre's concepts in social research and architecture by focusing on urban conjunctures in Barcelona, Belgrade, Berlin, Budapest, Copenhagen, Dhaka, Hong Kong, London, New Orleans, Nowa Huta, Paris, Toronto, SA?o Paulo, Sarajevo, as well as in Mexico and Switzerland. With contributions by historians and theorists of architecture and urbanism, geographers, sociologists, political and cultural scientists, *Urban Revolution Now* reveals the multiplicity of processes of urbanization and the variety of their patterns and actors around the globe.
